***Claim Rejections - 35 USC § 112***

1. Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The phrase "in a direction apart from said first surface" is indefinite and vague. It is not clear what applicant intends to claim. Appropriate correction is required.

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

2. Claims 1-6 and 8 are rejected under 35 U.S.C. 102(e) as being anticipated by Pakeriasamy (US 5,957,293). Pakeriasamy discloses a tray comprising a substantially planar main body 10 with a first storage portions 24 provided on a first surface of the main body and second storage portions on the second surface of the main body. The first storage portions each has inclined surface as shown in Figure 7. The inclined surface is divided into two areas wherein the second area is above the first area and has an inclined angle larger than the angle of the first area. The trays are stackable and has standoff 42 protruding downward and provide the second storage portion.

***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 7 and 9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Pakeriasamy in view of Nemoto (US 5,418,692). Pakeriasamy discloses all of the elements of the claims, except for the second storage pocket with inclined wall surface. However, Nemoto suggests providing a second storage pocket as shown in Figure 8b wherein the angled protruding portions engage both a top surface and the corner of a component to stabilize the component and prevent movement vertically and horizontally. Therefore, it would have been obvious in view of Nemoto to move the protruding portions of Pakeriasamy outwardly to prevent the component from movement.

*Conclusion*

5. Telephone inquiries regarding the status of applications or other general questions, by persons entitled to the information, should be directed to the group clerical personnel and not to the examiners. In as much as the official records and applications are located in the clerical section of the examining groups, the clerical personnel can readily provide status information without contacting the examiners, M.P.E.P. 203.08. The Group clerical receptionist number is (703) 308-1148.

If in receiving this Office Action it is apparent to applicant that certain documents are missing, e.g., copies of references cited, form PTO-1449, form PTO-892, etc., requests for copies of such papers should be directed to Valerie Douglas at (703)308-1337.

For applicant's convenience, the Group Technological Center FAX number is (703) 305-3579 or (703)305-3580. This practice may be used for filing papers not requiring a fee. It may also be used for filing papers which require a fee by applicants who authorize charges to a PTO deposit account. Please identify Examiner Luong of Art Unit 3728 at the top of your cover sheet of any correspondence submitted.

Inquiries concerning the merits of the examination should be directed to Shian Luong whose telephone number is (703) 308-2039.
